“ Dane and I worked together for a number of years. I knew him to be kind, caring and a truly good man. May peace be with his family at this time of sadness but his memory live on on your heart. Namaste.

“ Oh my gosh Dane & I had become friend's on Face book, we knew alot of same people from High school & I grew up with his cousin Gary Self & the Haupt's. He was such a nice kind caring person, I was trying to help him with his alcohol addiction but it was so way over my head to help him. I spoke with him everyday on the phone since his birthday in January. I would send him bible quotes & positive motivational quotes. I shared with him he was never alone ,even though he felt alone. He felt he messed up & could not fix his mess ups, he would share with me how much he truly loved his 3 beautiful children. He also shared with me how much he loved his friend's & family. He missed his Mom & his cousin Timmy. Well now I know he is at Peace with them and will rest in Peace forever! my condolences to all his friend's & family ,may Peace be with all of them at this very hard sad time. My heart breaks for people that have an addiction no one truly knows how bad & hard it is & how much the person that has the addiction just lives in so much pain & disappointment he reached out to me for help & I so tried to give it to him & sadly it just was not enough, please people if you know anyone who has an addiction with drugs or alcohol please stay humble & be kind to them, don't kick them when they are down, try to lift their spirits while they are going through this hard time. Help them give them Hope ! my heart aches that Dane was hurting so bad & he just felt he could not fix his problem. I told him God had a plan for him, was not expecting this to be God's plan, because Dane went home too soon, but I know he is with God & his loved ones & that he is now in Peace having no more pain. Dane memory will live on forever in my heart. Dane is gone but will never be forgotten, rest in peace my dear friend, love you always & miss you always. God bless - Kelly
