“ *Diana was my sister and I can state with all certainty that I never doubted for a minute her love of her family. Her boys were her life and when you were around her you felt her love. As a child she was my protector and my advisor. I will miss her every day. Her passing has been felt by everyone that her light touched. I know that she is still watching over all of us.*

SC

I agree wholeheartedly Diana was my sister-in-law for 22 years and even though I'm not married to her brother-in-law anymore, she would always always be my sister of heart
