“ *My deepest and sincerest condolences on your loss. Earth's loss is Heaven's gain. Heaven has gained another beautiful soul. Elba was an amazing person , she had such a wonderfully big heart. Always willing to listen, advise and counsel. Always thinking of others and willing to help anyway she could. She taught me the meaning of true loving friendship by how she viewed and treated her friendship with my mother, Inez. I often used to ask her how they considered each other such good friends when they didn't talk or get together as much as I thought they should. She told me in no uncertain terms that the friendship and love they shared was and would always be on her heart and mind no matter what life put in their paths. It was an amazing thing to witness especially when,they would get together it was as if their friendship never skipped a beat. I will always be grateful and in admiration of that beautiful lesson she shared with me. Elba, Thank You for everything! Thank You for your beautiful friendship with my mother and by extension my sister and myself! Thank you for your advice, guidance and wisdom! You will be sorely missed by us all! May your beautiful soul rest in eternal peace!*

“ *Elba you had know me from the day that I was born. I remember when I was babysitting Janelle and you would come home from work and go straight to your room to get comfortable then you would go to the kitchen sit down and light up a cigarette and you had your cup of coffee and you always had time to chat with me before I went home. I love you and will always remember you.*
