“ *Though we didn't see each other much, I have a lifetime of memories of my mom's little sister. I remember your wedding day...(I was 4), your coming to Milwaukee with the kids to visit grandma, a three family vacation at Ocean City, and many, many, trips to Florida (Disney World of course). I'm sorry I have not had the chance to get there recently. I was hoping to come down after I sell my store-soon I hope. I tried to keep in touch, with phone calls and flowers (what else would a florist send?), but it wasn't nearly often enough. I will truly miss you, Betty. May you rest in peace. My sympathies to Carl, Susie, and Sally and all of their families.*

Your Wisconsin Niece, Janet

“ Oh, Mom. We will miss you so. As a little one, I remember you letting me cook my hot dogs over the flame of our gas stove in Maryland; and of course, spraying Bactine and patching me up on all the cuts a scrapes a little boy finds. In the later years, I remember best that sneaky-smile you had when you shared with me something you did that you thought I might not approve of. Your sense of humor and positive outlook always served you well. I will miss out weekly chats. Although you are gone in the flesh, I still see you within me and my daughters, so you are not really gone. And I know that I will be seeing you again soon in what will seem to be a blink of an eye. God blessed us with you. Enjoy your reward in heaven. Your loving son.

“ While I did not know Betty well, I know that she must have been a very loving mother and grandmother. I know this because she brought into this world a most loving daughter who I am so proud to call my sister in law Sally. All our love to Sally , Jeff, Jen, and Joe during this time.

“ My grandma was sweet, kind, and loving. She was joyful and wonderful. I loved talking with her about her card games, knitting, her great-grandkids, and life. She was an angel on earth and now in heaven. I am very sad for us, but so happy for her. She is with her loved ones and we get to have her watch over us. We were so blessed to have her in our lives.

“ I will always remember your smiling face when Sally and I were getting ready for our jr.high and high school adventures. You always felt warm and at home to me. Your in God's arms now and in no pain...no sweeter place to be. Promise to always think of the good times shared with you. Prayers to you and your family Sally and to all lives that your sweet momma touched ?????”

“ One of my strongest memories of my Aunt Betty was her laughter. Whether laughing with us , at us , or overhearing her laugh from another room, she was a loving , constant presence in our young lives.”

Margaret Henry Walters - May 05, 2015 at 03:58 PM

“ Sarah Kelly lit a candle in memory of Elizabeth "Betty" Jane Henry”
