“ *She was my Mother-In-Law but treated me more like a grandson. She always made sure visitors were comfortable and well fed. She was like the Grandmother I never had growing up and a mother-in-law that was loved by all. She loved and enjoyed having her Grandchildren every summer possible and treated them like jem's. She would read to them, play with them, color with them take them where ever they've never been. Before CD's were created she was busy burning memories and images of love and acceptance into her family. <3*
