“ I like to know if this lady work and had Title and escrow company? I was looking for her because on 2004 and 2005, she was the person who help us in the closing of our properties and was an excellent professional. I am about to need a service for a closing on a house and I was looking for her and I just found this site!!! If she is the same one what a loss!!! Great human, great heart!!!

Yes, she was a closing agent.. Paula and I dated exclusively then I moved from Florida to CA. I found out she passed but not sure from what. Paula had breast cancer and had a partial masectimy and I suspect that cancer had returned but I'm not sure.

“ I worked with Paula for many years.. She was an amazing stickler for perfection. LOL A single mom with two wonderful sons. Unfortunately I had not spoken to her for years. My prayers are with her entire family. Sincerely, Candice Murphy
