“ *Bob it still feels surreal that you are gone. You may be gone from this world but you will never be forgotten and you are loved by so many ! If god had given me one wish I would have wished for you to be healthy again, if I could have given you a kidney I would have without even thinking about it, but there was nothing anyone could have done to help you and only god was able to release you from the pain and suffering and he did. I will keep Julie and Lauren in my prayers and hope that in time their pain will get better and that they will be able to draw strength from knowing that you are in a much better place then the rest of us. Since you have left you have made your self known in some way with severalal people especially Lauren and it has given her some comfort so keep going. The Johnson family loves you and misses you but we will never forget you!*
