“ *my friend Das, was a great doctor, and greater human, I had the privilege to call him as my friend, we used to get together , loved to talk about cars and his travels. he was always positive towards life. He was generous, trustworthy, and full of wisdom. He lived the life fully. I will greatly miss his company. Rest in peace my friend. you always have a place in my prayers*

“ Wonderful, smart ,sweet ,kind and a great doctor. This is how I will remember Dr Das. I met him 16 years ago in Arizona. He was so personable. He had just moved here from Florida. He was always available for sharing ideas and to consult with you. As a doctor he had taken care of myself and daughter and was wonderful and caring. He just made you feel good. I was so shocked to hear he passed today. He was one of the good ones. Rest in peace my friend. I will always remember you fondly and you will be carried in my heart always. May we meet again on the other side. You will be missed in the world you always offered so much as a human being.

“ MAY YOU REST IN PEACE DR DAS, YOU WERE A ONE-OF-A-KIND RADIOLOGIST. WHERE THE WELL BEING OF YOUR PATIENTS WAS ITS OWN REWARD TO YOU. THE BIT I REMEMBER OF YOU AND AS I WILL ALWAYS REMEMBER YOU AS A KIND, GENEROUS, SYMPATHETIC AND KINDHEARTED MAN MAY YOU REST IN PEACE DR DAS A NEW GAURDIAN ANGEL-GENOVE CARDOZA

“ I remember Dr. Das (I always defaulted to that title, even though he insisted I call him "Sam") as being the most kind, gentle, and generous human being that I have ever known. He always had a kind and positive word to offer us, no matter what was going on in our life, professionally and personally. Throughout the past 15 + years, due to his unwavering willingness to provide vacation coverage for Ron, he allowed our family the ability to be together, as we are all scattered across the nation, and create lasting wonderful memories. Without him, this would not have been possible, and we are forever grateful. As he was so well-travelled, I always consulted him when one of our grown children was traveling in a country that he had visited, and his opinion usually eased our worries. His gentle soul has made a lasting impression on all who knew him. We will miss him greatly.

SW

Wow, I met Dr Das back in 2008. Worked with him. Helped him whenever I could. He was very sweet and very patient. There were times when we would hit a road block and I wanted to shout and go after certain people , but bless Dr Das , he would be calm and so soft spoken about our next moves even though we both knew exactly who the problem was and still he was very gracious about it. When we went out with other coworkers after a long days work, we would laugh and relax and just have fun. There were many great employees back then and we all had fun with Dr Das. If you needed help , he was right there with a smile on his face. I really miss those days but I am so thankful that we all had the pleasure of knowing him. I know one day we will meet again until then dear Dr Das, may you rest in peace cuz when I get there, we will be laughing and joking again. Sharon Wood

“*Dr. Das was a rare gem. He was unique, an enigma. It is rare to find a Medical Physician, a Radiologist that is brilliant and kind hearted human being.*

Dr. Das was one of those Radiologists who wanted to share his wealth of knowledge which in essence made you better at your job. He cared about his patients and took the time to explain the process of a scan or procedure causing the patient to feel heard, listened to and safe. Dr. Dad was like the All State commercial- “ You are in Good hands”.

I remember many times when Dr. Das would go to the Doctor’s lounge and take the snacks and coffee and bring it to the department for the Technologists and say here are some goodies to keep you going. It was not so much the snacks as it was that he thought about us. He was just that kind of person.

In truth, Dr. Das was one of my favorite Radiologists. I can say with certainty that we were all looking forward to having Dr. Das join us permanently with Health First. The Nuclear Technologists at Gateway did not know what kind of rare gem they would have had with Dr. Das. It has been a privilege and honor working with Dr. Das. We will all miss and love you. Rest in peace.
