SR

“ *Saddened to hear about Rangarajan passing away. I was in engineering college with him and I think we both were room mates for a year or two. He was a man driven to succeed and he did very well in this country. His children have followed in his footsteps and proven themselves.*

*Heartfelt condolences to all family members and especially to Ms. Chitra.*

*May his soul rest in peace.*

RV

*My deepest sympathies to Ms Chitra and the two sons and family. I knew him since year 1961 when we both travelled together to join Engineering college. We were room mates for two full years out of 5 years of college. He was very creative and always used to come out with a radical different idea. No wonder he changed his career from Mechanical Engineering to Dental profession. Although I used to differ with him in many arguments, he had his own style of pacifying and start usual conversation . My heart felt condolences to the family !*
