“ I retired from NASA in 2009 and worked extensively with Vu. For some reason, I was thinking of Vu today and decided to do a search for him. I was shocked and deeply saddened to hear of Vu's passing. It was truly a pleasure to work with him. Please accept my deepest sympathy.

“ I have known Vu many years through our working relationship at NASA. Vu was hard-working but also friendly and cheerful. He loved to joke and laugh with his co-workers. He especially enjoyed office parties. My wife and I remember Vu being very enthusiastic and working very diligently to win prizes at the annual Christmas party. At work in the office, Vu was easy-going and he never let the stresses of work bother him. It was truly a pleasure to work with Vu and to enjoy socializing outside of work. It is hard to imagine going to work without Vu being there. We will really miss Vu and his smile.

“ I am deeply saddened to hear about Vu's passing. I will remember Vu's smiling face no matter what he needed to do. We worked together in the Maximo lab. Vu was a team player. Sometimes we had short deadlines, and he always delivered. I will miss working with him. My thoughts and prayers are with the family in this very difficult time. Please accept my deepest sympathy.

“ I am so sorry for your sudden loss of such a great man. I know from working with Vu for many years, that he was a great father and great husband. He truly cared about all his family and friends. He would do anything he could to help them. As a member of our Maximo Team he was an extremely hard worker and never complained about anything no matter how hard the task. He would just look at me and say "We are Maximo" and give me that smile of his. He was a great asset to the NASA work force and the Maximo Development lab team. We were like family. We looked after each other and truly enjoyed working together as a Maximo Team. I will greatly miss Vu's smiling face and his humor. He would tell me that if he did something wrong he would just tell them that "Jerry forced me to do it!" and smile. I loved hearing him say that. He loved taking his family on vacations such as the trip to Cancun Mexico. I am so glad he was able to make that trip and I was able to help. He always wanted to take his family to see snow for the first time. Vu is someone you will never forget. I know I will never forget him. I pray for Vu's family during these extremely difficult times.

“ I am still in shock about this, I feel like I just saw Vu's work email just the other day... This is just too sudden and too sad... It was always a pleasure working with Vu, he's always helped me since I started interning at the Maximo lab, he's always been so kind and patient with me learning everything. His humor always brought so much joy to the lab, I miss his presence, his laughter, his kindness already... sending prayers to his family.

“ I must admit that I didn't know Vu all that well, but we did work together on the Rocket Science 101 project a few years ago. Vu always had a smile and a greeting for me whenever we ran into one another at work. I will miss him.

My heart goes out to his family and loved ones. I truly hate the fact that, in this time of the pandemic, I will have to miss his services. Rest assured that I will be there in spirit.

Ad astra, my friend!
