“ *To The Haverly Family: Although I never met Whitney in person, I always enjoyed working with her as the administrative assistant at Central Property Management and Magnolia Property Management. She was a delightful person and a great asset to those companies. Please accept my sincere sympathy and condolences. Catherine von Dullen, Williamsburg, Virginia*

“ I knew Whitney for a little over ten years. I worked with her and found her to be a sweet and brilliant person. We had our friendly rivalry as she was an FSU football fan and I was an UF football fan. Each year for the FSU/UF game, we would bet \$1. The loser of the bet had to write along the edges of the dollar bills about "how awesome the other team was" and how "our team sucked and deserved to lose".

She was always willing to help out around the office and to make sure the customers were taken care of, her ability to work with numbers were astounding. She could total numbers in her head with no need for a calculator and could recall balances or other facts for the customers without having to pull it up on the computer.

I never spent any time outside of work with her, but we had a lot of common interests, with sports and politics. Our humor was the same and we often shared Internet memes with each other or YouTube videos about our favorite shows. It was because of her I started watching Friends, which was her favorite all time show.

I will miss her presence and laugh. I will think of her often and try to remember all the times she made me smile. She was a good person and was a bright star for many of us who knew her.

May she rest in peace.

With all my love and compassion.
